Beverly, Mass., Aug. 11.—The pres-ident's secretary, Mr. Carpenter, had an extended conference today with representatives of the New York Centrai railroad, who are making the arrangements for the president's trip through the west and south. As the president will start for Chicago over the New York Central, that road has undertaken the task of completing the bookings, schedules, etc., for the en-tire two menths' journey. Some changes have been made in

the times of arrival and departure from various places. The president therefore will spend October 11 and 12 in Los Angeles, leaving that city over the Santa Fe railroad the morning of Oc-tober 13. Mr. Taft will visit his sister at Los Angeles, which accounts for the longer stop he will make there than at some other coast cities.

They had no difficulty, it said, in obtaining girls from the offi-cials of certain bomes. Similar evils have been found to exist in other American icties, and the crusade against them is likely to extend to several ports where large numbers of immigrants arrive. The commission will report to congress early in March of next year.
